I am <Your Name> and my Account No. <Account No.> is this. I'm holding a saving bank account in your branch and I have been using it for about 5 years

Yesterday afternoon, I was withdrawing money from my nearby ATM. Like every time I go and withdraw money from it. But this time my money did not come to me because when I was using it there was a short circuit in the front of the ATM Transformer Although no one was harmed by it. But I did not **get my money and its notification came on my mobile.**

I hope you are understanding my problem and you will definitely find a solution for it. I know that you will not disappoint me, you will definitely help me.

Thank You

Your Sincerely
